

AI SysRev Register and Privacy Policy

The purpose of the register and privacy policy is to describe the processing of information by the controller. Personal information is processed in accordance with applicable EU and national legislation and the regulations and guidelines issued thereunder.

The name of the register

AI SysRev

The purpose and usage of the register

The legal basis, adequate to the EU's General Data Protection Regulation (GDPR), for the handling of personal information is the legitimate interest of the registrar. Personal information is not used in automatic decision making or profiling

The Controller

Helsingin yliopisto, Tietojenkäsittelytieteen osasto

PL 68 (Pietari Kalmin katu 5) 00014 HELSINGIN YLIOPISTO

Data protection liaison

Mika Mäntylä, mika.mantyla@helsinki.fi

Purpose of the processing of personal data

Personal information stored in the user register is used to verify users identities and access rights. The additional information stored in the register is gathered from the AI SysRev application's form and other occasions, where the end user chooses to disclose their information.

Information in the register

Personal information:

- Email
- University of Helsinki user identifier

Additional information:

- Titles and abstracts of research papers
- API keys for third-party LLM services

Regular data sources

Personal information is collected automatically when the user logs in via University of Helsinki's login service (OIDC).

Disclosure of information

The personal information will not be disclosed to outside parties. Personal information will not be transferred outside the EU or EEA.

Research paper information (titles and abstracts) are transmitted to a third-party LLM service using an API key provided by the user. The controller is not responsible for the data processing practices of the third-party service. Users should refer to the privacy policy of their chosen LLM service provider.

Register security principles

Personal information contained in the register is kept confidential. Access to the register is restricted so that information stored in the system can only be accessed and used by persons who are entitled to do so by virtue of their duties. Staff handling personal information are bound by a duty of confidentiality.

Daily backups are taken of the system's components, which are encrypted and stored in a secure location. Backups are stored only as long as it is necessary to recover the system in case of a system failure or malfunction.

Right to inspection of information

As a user, you have the right to access personal information concerning you, including the right to receive a copy of your personal information. Information will be provided in an intelligible format and always in writing. Requests can be directed to the data protection liaison listed above.

Right to demand correction of information

The user may delete their account and all associated information via Settings → Account. Alternatively, you may request deletion by contacting the data protection liaison listed above.

The registrar may ask the requester to verify their identity. The registrar will respond to the request within the timeframe set in the EU General Data Protection Regulation (within one month as a general rule).

Use of data for research purposes

With consent given by the user, AISysRev may collect usage data for academic research purposes at the University of Helsinki. This data is used to understand how our services are used and to improve the users experience. Consent can be given or withdrawn via Settings → Account.
